

Community Project Funding Resource Guide

Updated: March 2, 2026

Dear Friend,

I am pleased to share this following resource guide regarding how to request Community Project Funding through the annual appropriations process. This guide is an effort to streamline the process and provide you with the best information available in a clear and concise format. My team and I are committed to creating a fair and equitable process that will be beneficial to all of California's 24th Congressional District.

In this guide, you will find an overview of the appropriations process, the Community Project Funding process, answers to many frequently asked questions, my staff contact information, and a brief overview of alternate federal funding sources.

As you prepare your requests, please keep in mind that my office will receive far more Community Project Funding requests than can be fulfilled. As a result, many deserving, appropriate, and eligible projects will not be provided federal assistance in fiscal year 2027. That is why it is extremely important that every project and requestor pursue other grant and federal/state/local funding opportunities where available.

Thank you again for your interest in this year's Community Project Funding process. My team is available to answer your questions as needed. I look forward to working with you to bring needed federal resources to California's Central Coast in the 24th Congressional District.

Sincerely,

A handwritten signature in black ink, appearing to read "Salud Carbajal". The signature is written in a cursive, flowing style.

Salud Carbajal
Member of Congress

Staff Contact List

Please submit all **FY 2027 Appropriations requests** through my office's form at <https://carbajal.house.gov/constituent-services/fy27-appropriations-requests.htm>

- ***The deadlines to submit a programmatic, language or CPF request for FY 2027 are listed on my website linked above.***

Please submit all **FY 2027 Community Project Funding requests** through my office's form at <https://forms.office.com/g/Ord7bZK4zc>

- ***The deadline to submit a Community Project Funding are listed on my website linked above.***

For specific questions, please reach out to my staff below:

- Johanna Montiel, Deputy Chief of Staff/ Legislative Director
 - Johanna.Montiel@mail.house.gov
- Erica Reyes, District Director
 - Erica.Reyes@mail.house.gov

Overview of the Appropriations Process

Each year, the United States Congress considers and enacts annual appropriations bills, which provide the federal government with the funding it needs to operate. These bills fund numerous activities, including government operations, medical research, national defense, infrastructure, and education.

As the Representative for the Central Coast of California, I want to ensure that the federal government invests in the policies and programs that help move our communities, state, and country forward. That is why it's important I hear directly from you about what our federal budget should prioritize.

You or your organization may submit programmatic or language requests. Programmatic requests include funding for specific federal programs that are important to you or your organization. Language requests include specific policy directives to federal agencies.

We ask that you submit your programmatic or language requests by our March 4th and 6th, 2026 deadlines. You and your organization should begin developing your request well in advance to ensure that your request is submitted properly and tailored to the needs of your project. As you develop your request, please feel free to contact my staff and use this resource guide to ensure your project request meets all requirements.

In order to submit a request, please complete the form on my website at <https://carbajal.house.gov/constituent-services/fy27-appropriations-requests.htm>. We cannot guarantee that requests submitted after the deadline noted on my form will be considered. If you have problems or questions while completing these forms, please feel free to contact my staff.

My team will review each request. The entire appropriations process can take several months. Appropriations bills approved by the House Appropriations Committees must be agreed to by both chambers of Congress and signed into law by the President before the end of the fiscal year on September 30th; however, the process often extends beyond this date.

Overview of the Community Project Funding Process

The House Appropriations Committee will continue to accept Community Project Funding requests for Fiscal Year 2027. These requests will be funded through the numerous government funding bills.

My team and I are looking forward to recommending important local projects for federal funding this year. However, it is important that you know how this process will work this year.

First, you should know that my team and I expect to receive hundreds of requests for funding. While it's my goal to fund as many projects as possible, Members of Congress can only submit **20 requests** to fund Community Projects, and we cannot guarantee what will be funded.

Second, it is important that any request you make satisfies **every** requirement laid out by the House Appropriations Committee. Most importantly, each request must include demonstrated community support. You will be required to submit evidence of community support, including (but not limited to):

- Letters of support from elected community leaders
- Press articles highlighting the need for the specific project
- Resolutions passed by local/county/state governments
- Projects listed on community development plans, state intended use plans, and other publicly available planning documents
- Support from local newspaper editorial boards, etc.

Additional requirements are listed below:

- A financial disclosure statement from myself certifying that neither my immediate family nor I have any financial interest in the proposed project.
- Projects must be tied to existing Federal Authorization Law.
- No funds can be used by for-profit recipients.
- Matching funding must be available for each project from the state/local government (matching funding does NOT have to be in-hand, but officials must have a plan to fund in order to meet this requirement).
- Each project is funded only for FY 2027.

In the interest of transparency, all Members are required to post all Community Project Funding requests submitted to the committee on their website. The posting must include the name of

the proposed recipient, the address, the amount of the request, and an explanation of the purpose and justification for the use of taxpayer funds.

As more information becomes available, this guide will be updated.

Data and Lessons from FY 26, Changes for FY 27

For the FY26 Community Project Funding Process, the House Appropriations Committee included **4,987 total** Member Requested Projects. The average award was **\$1,787,000**.

For Fiscal Year 2026, 11 of the 12 appropriations bills were signed into law throughout January and February of 2026—and these bills included Community Project Funding requests. As of March 1, 2026, the only appropriations title that has not been signed into law is Homeland Security.

15 of my 15 projects were funded and signed into law by President Trump.

Included in this guide will be the average funding of requests for each subcommittee and account.

Our team learned that the House Appropriations Committee values quality projects, so requests that are of high quality and well put together will have a higher chance of being included.

When making a request, please request the amount you can conceivably use, even if that number seems higher than the average award for that account.

The House Appropriations Committee under new leadership made some significant changes to the Community Project Funding Process that has continued on for FY 2027. The changes are as follows:

- The total amount of money available to spend has been cut to .5% of discretionary spending (in past years it has been 1%). Project costs could end up limited to partial funding of requests.
- Projects must now be tied to existing federal authorization law (more detail can be found in the account descriptions).
- Museums, Memorials, and “Commemorative” Projects are no longer eligible for funding.
- Eligibility for Non-Profits has been limited in certain cases (more details can be found in the account descriptions).

- Accounts previously available in **Financial Services and General Government, and Defense Subcommittees** are no longer available for use, and thus unable to be requested.
- For Fiscal Year 2027, the Appropriations committee brought back limited funding for Health Resources and Services Administration (HRSA) under Labor, Health and Human Services.

As more details become available, this guide will be updated.

Topline Summary of FY27 Community Project Funding – Eligible Accounts

Agriculture, Rural Development, Food and Drug Administration, and Related Agencies

Department of Agriculture – Farm Production and Conservation Programs

- Natural Resources Conservation Service (Conservation Operations)

Department of Agriculture – Research, Education, and Economics

- Agricultural Research Service (Buildings and Facilities)

Department of Agriculture – Rural Development

- Rural Housing Service (Community Facilities)
- Rural Utilities Service (Distance Learning and Telemedicine Grants)
- Rural Utilities Service (Rural Water and Waste Disposal Grants)

Commerce, Justice, Science, and Related Agencies

Department of Commerce · NIST – Scientific and Technical Research

- NOAA – Coastal Zone Management

Department of Justice

- COPS Technology and Equipment
- Byrne Justice Assistance Grants (Byrne)

National Aeronautics and Space Administration

- Safety, Security, and Mission Services

Energy and Water Development

Army Corps of Engineers (Civil Works)

- Investigations
- Construction
- Mississippi River and Tributaries
- Operation and Maintenance

Department of the Interior/Bureau of Reclamation

- Water and Related Resources

Homeland Security

Federal Emergency Management Agency

- Federal Assistance – Emergency Ops. Centers
- Federal Assistance – Pre-Disaster Mitigation

Interior, Environment, and Related Agencies

Environmental Protection Agency

- STAG – Clean Water State Revolving Fund
- STAG – Drinking Water State Revolving Fund

Labor, Health and Human Services, Education, and Related Agencies

Department of Health and Human Services

- Health Resources and Services Administration

Military Construction, Veterans Affairs, and Related Agencies

- Army
- Navy and Marine Corps
- Air Force and Space Force
- Defense-Wide Agencies
- Army National Guard
- Air National Guard
- Army Reserve
- Navy Reserve
- Air Force Reserve

Transportation, and Housing and Urban Development, and Related Agencies

Department of Housing and Urban Development

- Community Development Fund – Economic Development Initiatives

Department of Transportation

- Airport Improvement Program
- Highway Infrastructure Projects
- Transit Infrastructure Projects
- Consolidated Rail Infrastructure and Safety Improvements
- Port Infrastructure Development Program

Community Project Funding

Eligible Accounts

Agriculture Subcommittee

For each Community Project Funding request, Requestors will be asked to respond to a series of questions intended to provide transparency and ensure the project is a valuable use of taxpayer funds.

Although programmatic and language requests may be made for any account, only five accounts in the Agriculture appropriations bill will include CPFs. Keep in mind that project funding will depend on available resources and larger requests may have to be reduced.

All CPF requests must meet applicable eligibility requirements for the program in which the request is made, including underlying statutory and regulatory requirements (most notably applicable cost share requirements and eligible activities). Please note, nonprofit entities will not be eligible for FY27 CPF project consideration (with the exception of fire stations).

Any CPFs that are funded in an appropriations bill will need to apply to USDA for the award. The application will be reviewed for compliance prior to official award. To ensure your projects meet eligibility requirements for the Rural Development and Natural Resources Conservation Service accounts, you must consult with your respective State Rural Development or State Conservation office, which can be found below. Failure to confirm eligibility with the State Offices may result in a project not being considered.

Rural Development: <https://www.rd.usda.gov/about-rd/state-offices>

Natural Resources Conservation Services:

<https://www.nrcs.usda.gov/conservationbasics/conservation-by-state/state-offices>

Here are the specific pieces of information needed for the Agriculture bill:

1. The website address of the proposed recipient.
2. For Rural Development projects, has the recipient secured non-federal funds to meet the cost share requirements?
3. For Rural Development projects, what is the federal cost share / grant amount being requested for the project?
4. For Rural Development projects, what is the total project cost?
5. For Rural Development projects, will this project be phased?
6. For Rural Development projects, is the project for an eligible purpose and does it meet all eligibility requirements, with the exception of any Median Household Income requirements, under current law?
7. Does the entity plan to make grants to other entities from the funds provided and, if so, to whom?
8. Why is the project a priority for the district? Briefly explain the community benefits.
9. Has the project received federal funding before and, if so, how much, when, and from which agency or agencies and program(s)?
10. Have you contacted the State Rural Development Office/State Conservation Office to discuss the project and confirm eligibility? (If not, it is required to ensure project eligibility.)
11. With limited funding, if the project cannot be fully funded and must be significantly reduced, is it still a viable project and is that acceptable to the recipient? [yes/no]
12. For ARS B&F only, is it an existing USDA owned and operated facility? (It must be in order to be eligible.)
13. For ARS B&F only, what is the estimated start date of the project? How soon could the feasibility/engineering design phase commence? [mm/yy]
14. For ARS B&F only, does the project have distinct and separable phases?
15. For ARS B&F only, what is the estimated completion date of the project? When does completion of construction occur? [mm/yy]
16. For Conservation Operations requests only, briefly describe how the

project will reduce soil erosion, enhance water supplies, improve water quality, increase wildlife habitat, or other objectives that will help conserve, maintain, and improve natural resources.

17. For Water and Waste requests only, provide relevant information, such as the number of households, businesses, or farms that would be served.

Department of Agriculture

Community Facilities Grants (Rural Housing Service)

Grants to purchase, construct, or improve essential community facilities, to purchase equipment, and pay other related project expenses. Examples of eligible projects include but are not limited to: town halls, police or fire departments, and public works vehicles.

Project requests for non-essential facilities such as community gardens or museums will not be considered.

Priority will be given to essential projects, such as those focused on public health and safety.

All projects must serve a rural area as specified in 7 CFR 3570.53 (rural areas including cities, villages, townships and Federally Recognized Tribal lands with no more than 20,000 residents).

Except for fire stations, nonprofits will not be eligible for CPF project funding. The Member's request must demonstrate community support.

Applicants should ensure that their request provides the most complete description of the project possible. Submissions should include details on all proposed use of funds, activities that will occur, timeline, and detailed information on the complete service territory. Such requests are also subject to non-federal cost share requirements specified in 7 CFR 3570.63(b).

Please review program regulations carefully **and ask your respective state Rural Development offices with specific questions related to cost share eligibility.**

In-kind contributions and other federal formula or grant resources cannot be counted towards match requirements. Community Facilities grants cannot be used to:

- pay initial operating expenses or annual recurring expenses,
- refinance existing debt,
- pay interest,
- build or repair facilities in non-rural areas, or
- pay for construction costs of facilities that will be used for commercial rental space.

The State Rural Development Office is a valuable resource to answer program questions, including eligibility and non-federal cost share requirements, and can provide additional information on expectations for recipients including environmental reviews and Build America, Buy America Act (BABA) requirements. For Fiscal Year 2026, the average Community Facilities CPF award was about \$1.1 million.

Department of Agriculture, Rural Development, Distance Learning and Telemedicine Grants

The Distance Learning and Telemedicine program (DLT) helps rural residents better utilize the enormous potential of modern telecommunications and the internet for education and healthcare, two critical components of economic and community development. The DLT program helps rural communities acquire the technology and training necessary to connect educational and medical professionals with students, teachers, and patients in rural areas.

Grants may be used for audio and video equipment, broadband facilities that support distance learning or telemedicine (not actual broadband), computer hardware or network components/software, and acquisition of instructional programming.

Any requests are subject to all regulations governing the program which can be found at 7 CFR Part 1734.

The program requires a 15% match that cannot come from another federal source.

Applicants are strongly encouraged to provide as much detail as possible on how the award will be utilized, what equipment or service will be acquired and any information on population(s) served.

The program is intended to serve rural areas with populations of 20,000 or less. **Please note for FY27, nonprofit recipients will not be considered.**

The State Rural Development Office is a valuable resource to answer program questions, including eligibility. For fiscal year 2026, the average DLT CPF award was \$1,200,000.

Department of Agriculture, Rural Development, Water and Waste Disposal Grants

The Water and Waste Disposal Grant Program may be used to finance the acquisition, construction, or improvement of drinking water sourcing, treatment, storage and disposal; sewer collection, transmission, treatment and disposal; solid waste collection, disposal and closure; and storm water collection, transmission, and closure.

Applicants are strongly encouraged to provide details on the number of households and businesses served and details of the exact work to be completed. Eligible entities include rural areas and towns with population of 10,000 or less and Tribal lands in rural areas.

Potential recipients will be required to provide a 25% non-federal cost share. **Please note for FY27, nonprofit recipients will not be considered.**

The State Rural Development Office is a valuable resource to answer program questions, including eligibility. For fiscal year 2026, the average Water and Waste CPF award was nearly \$1.5 million.

Department of Agriculture, Agricultural Research Service, Buildings and Facilities

The Agricultural Research Service (ARS) owns and operates laboratories and facilities across the United States. Many of these laboratories/facilities are decades old, have outlived their functional lifespan, and 7 are badly in need of major repairs, renovation, or replacement.

Requests can assist in the acquisition of land, construction, repair, improvement, extension, alteration, and purchase of fixed equipment or facilities as necessary to carry out the agricultural research programs of the Department of Agriculture.

Facility requests must be for ARS-owned facilities or for facilities that are already partnering with ARS. Universities seeking new agricultural and/or veterinary facilities or labs are not eligible.

Applicants are strongly encouraged to provide details on the research to be conducted, why the research is a high priority, as well as details on the modernization and why it is critical in carrying out the research. **Requested funding for new facilities that do not have an existing ARS tie will not be considered.**

Department of Agriculture, Natural Resources Conservation Service, Conservation Operations

The Natural Resources Conservation Service (NRCS) supports private landowners, conservation districts, and other organizations to conserve, maintain, and improve the Nation's natural resources. Examples of specific objectives include reducing soil erosion, improving soil health, enhancing water supplies, improving water quality, increasing wildlife habitat, and reducing damage caused by floods and other natural disasters.

Applicants are strongly encouraged to provide details on the work to be done, including if the project will conduct surveys, investigations, or research, and if there is a plan to publish the results of any such work. Applicants should also describe any preventive measures to be taken, such as engineering operations, methods of cultivation, or changes in use of land.

For FY27, the Subcommittee will only consider projects for funding recipients that are state, local, and Tribal organizations, or conservation districts. **Nonprofit recipients will not be considered.**

Purchase of land and/or fixed equipment are not eligible activities.

Projects must have a direct tie to agriculture and/or farmland. The State Conservationist is a valuable resource to answer program questions, including eligibility. House CPFs in the account averaged about \$1.3 million in FY26.

Commerce, Justice, and Science Subcommittee

Department of Justice

State and Local Law Enforcement Assistance - Byrne Justice Assistance Grant (JAG)

All projects submitted must be for activities consistent with, and supportive of, the Office of Justice Programs' mission and aligned with one or more of the purposes described in the Byrne Justice Assistance Grants (JAG) program, section 501 of the Omnibus Crime Control and Safe Streets Act of 1968 (34 U.S.C. § 10152).

34 U.S.C. 10152(d) provides:

- (d) Prohibited uses: Notwithstanding any other provision of this Act, no funds provided under this part may be used, directly or indirectly, to provide any of the following matters:
 - (1) Any security enhancements or any equipment to any nongovernmental entity that is not engaged in criminal justice or public safety.
 - (2) Unless the Attorney General certifies that extraordinary and exigent circumstances exist that make the use of such funds to provide such matters essential to the maintenance of public safety and good order-
 - (A) vehicles (excluding police cruisers), vessels (excluding police boats), or aircraft (excluding police helicopters);
 - (B) luxury items;
 - (C) real estate;
 - (D) construction projects (other than penal or correctional institutions); or
 - (E) any similar matters.

Awarded grants will be subject to the requirements of 2 CFR Part 200 and the DOJ Grants Financial Guide.

Allowable costs are those costs consistent with the principles set out in 2 CFR Part 200, Subpart E, and those permitted by the grant program authorizing legislation.

Byrne JAG Grants assist state, local, and tribal law enforcement efforts to prevent crime, improve the criminal justice system, provide victims' services, and other related activities. Community projects funded under this category must comply with the

requirements cited in JAG statutes and be consistent with U.S. Department of Justice guidance for the program. Below are the links to the Department's guidance and frequently asked questions regarding Byrne-JAG:

<https://bia.oip.gov/program/jag/overview>

<https://bia.oip.gov/sites/g/files/xyckuh186/files/media/document/jag-faqs.pdf>

In addition, the Chair will not support the use of Byrne Justice Community Project Funding for the following:

- Initiatives that involve the distribution of drug paraphernalia.
- Initiatives that undermine the 2nd Amendment or infringe upon rights guaranteed by the Constitution without due process of law.
- Initiatives that appear to be anti-law enforcement or unrelated to criminal justice.
- Larger projects for the construction or renovation of penal or correctional institutions that will exceed the capability of single-year funding.

In the event of limited funding, the Chair will prioritize projects focused on improving the effectiveness of law enforcement, increasing officer safety, curbing the opioid crisis, and other strategic priorities.

Projects with non-profit recipients may be eligible, so long as the purpose is to carry out work that closely aligns with the purposes of the Byrne JAG program. Such projects will be closely examined.

Requestors submitting Byrne JAG project requests are required to submit answers to the following additional questions. Failure to complete all required questions will result in an incomplete project request. Incomplete project requests will not be considered for community project funds.

1. Is the recipient entity a non-profit organization as described under section 501(c)(3) of the Internal Revenue Code of 1986? [yes/no]
2. Can this project spend a smaller amount of appropriated funds within 12 months of the enactment of the appropriations act? [yes/no] If yes, please provide any details that may be helpful for understanding the scalability of the project.
3. Please provide the location of this project, in the format 'City (or County), State'. This location will be printed in the public disclosure table. Examples include: 'Hazard, KY', or if the project is not located within a city, but rather a county: 'Perry County, KY'.

Community Oriented Policing Services (COPS) - Technology and Equipment

All projects submitted must be aligned with the purposes of section 1701(b)(8) of the Omnibus Crime Control and Safe Streets Act of 1968 (34 U.S.C. § 10381(b)(8)).

The Chairman will consider projects to develop and/or acquire technologies and equipment, including interoperable communications technologies, modernized criminal record technology, and forensic technology, to assist State, Tribal, and local law enforcement agencies, including by reorienting the emphasis of their activities from reacting to crime to preventing crime and training law enforcement officers to use such technologies.

This funding will allow recipients the opportunity to establish and enhance any of a variety of technical equipment and/or programs to encourage the continuation and enhancement of community policing efforts within their jurisdictions. These projects should help improve police effectiveness and the flow of information among law enforcement agencies, local government service providers, and the communities they serve.

The Committee will not fund vehicles or building construction/renovation projects. Recipients of community project funding under this account may *not* subgrant to other organizations or agencies. Note the Committee may consider similar or higher project amounts for FY 23. Any caps will be determined after reviewing the full universe of requests, and while there are no guarantees, projects of a modest size are more likely to receive full funding.

Requestors submitting COPS project requests are required to submit answers to the following additional questions. Failure to complete all required questions will result in an incomplete project request. Incomplete project requests will not be considered for community project funds.

1. Is the recipient a state, Tribal, or local law enforcement agency?
2. Can this project spend a smaller amount of appropriated funds within 12 months of the enactment of the appropriations act? [yes/no] If yes, please provide any details that may be helpful for understanding the scalability of the project.

3. Please provide the location of this project, in the format 'City (or County), State'. This location will be printed in the public disclosure table. Examples include: 'Hazard, KY', or if the project is not located within a city, but rather a county: 'Perry County, KY'

Department of Commerce

National Aeronautics and Space Administration (NASA)

NASA Safety, Security, and Mission Services

All projects submitted must be for activities advancing the purposes described in section 20102 of title 51, United States Code. Projects should focus on science, education, research, and technology development related to NASA's mission.

Funding for building construction or renovation projects, as well as Medical Research Projects will **not** be considered for community project funding.

Requestors submitting NASA Safety, Security, and Mission Services community project requests are required to submit answers to the following additional questions. Failure to complete all required questions will result in an incomplete project request. Incomplete project requests will not be considered for community project funds.

1. Is the recipient entity a non-profit organization as described under section 501(c)(3) of the Internal Revenue Code of 1986? [yes/no]
2. Can this project spend a smaller amount of appropriated funds within 12 months of the enactment of the appropriations act? [yes/no] If yes, please provide any details that may be helpful for understanding the scalability of the project.
3. Please provide the location of this project, in the format 'City (or County), State'. This location will be printed in the public disclosure table. Examples include: 'Hazard, KY', or if the project is not located within a city, but rather a county: 'Perry County, KY'.

*Department of Commerce – National
Institute of Standards and Technology (NIST)
– Scientific and Technical Research and
Services – Scientific and Technical Research*

NIST Scientific and Technical Research projects support standards-related research and technology development. Purpose & Federal Nexus: Funding must be for activities consistent with, and supportive of, NIST's mission and aligned with one or more of the functions and activities described in section 272 of title 15, United States Code.

Note: Funding for building construction or renovation projects is not an eligible use of NIST Scientific and Technical Research Community Project Funding.

Non-profit colleges and universities are the only eligible non-profit recipients of a NIST Community Project.

Supplemental Questions for NIST Scientific and Technical Research project requests:

1. Is the recipient entity a non-profit organization as described under section 501(c)(3) of the Internal Revenue Code of 1986? [yes/no]
2. Can this project spend a smaller amount of appropriated funds within 12 months of the enactment of the appropriations act? [yes/no] If yes, please provide any details that may be helpful for understanding the scalability of the project.
3. Please provide the location of this project, in the format 'City (or County), State'. This location will be printed in the public disclosure table. Examples include: 'Hazard, KY' or if the project is not located within a city, but rather a county: 'Perry County, KY'.

Department of Commerce – National Oceanic and Atmospheric Administration (NOAA) – Operations, Research, and Facilities – Coastal Zone Management

NOAA Coastal Zone Management projects support the protection, restoration, and responsible development of our nation's diverse coastal communities and resources.

Funding must be for activities consistent with, and supportive of, NOAA's mission and aligned with one or more of the purposes described in the Coastal Zone Management Act of 1972 (16 U.S.C. § 1451 et seq.).

NOAA Coastal Zone Management projects are subject to any applicable cost-share required by law under the Coastal Zone Management Program.

Non-profit colleges and universities are the only eligible non-profit recipients of a NOAA Community Project.

Supplemental Questions for NOAA Coastal Zone Management project requests:

1. Is the recipient entity a non-profit organization as described under section 501(c)(3) of the Internal Revenue Code of 1986? [yes/no]
 2. Can this project spend a smaller amount of appropriated funds within 12 months of the enactment of the appropriations act? [yes/no] If yes, please provide any details that may be helpful for understanding the scalability of the project.
 3. Please provide the location of this project, in the format 'City (or County), State'. This location will be printed in the public disclosure table. Examples include: 'Hazard, KY', or if the project is not located within a city, but rather a county: 'Perry County, KY'.
-

Energy and Water Development Subcommittee

The subcommittee will only be considering requests in the following accounts:

U.S. Army Corps of Engineers

- Investigations
- Construction
- Mississippi River and Tributaries
- Operation and Maintenance

U.S. Bureau of Reclamation

- Water and Related Resources

Not all programs within these accounts will be open for requests. If the project is **not** an individually authorized project or a project under the Corps of Engineers Continuing Authorities Program, please let my team know prior to submitting your request.

A Community Project Funding request is only necessary to request an increment of funding or scope above and beyond the President's budget request.

U.S. Army Corps of Engineers and Bureau of Reclamation

All requests for the Corps of Engineers (Corps) and Bureau of Reclamation (Reclamation) accounts listed above should reflect a funding amount that can be realistically utilized in FY27. This is referred to as the project's "capability" for FY27. All projects will be sent to the relevant agency for technical assistance, including regarding project capability. It is possible that approved Community Project Funding requests will be funded at a level lower than the requested level.

If the scope of the request varies from the President's budget request (i.e. the Member is seeking an amount above the budget request amount), then the request must be submitted as a CPF request.

If the project is not included in the President's budget request, the Member must submit it as a CPF request.

Please note that for the Corps, the Subcommittee may provide funding for a very limited number of new start projects, if any, in the Investigations, Construction, and Mississippi River and Tributaries accounts. While requests for new starts in these accounts will be accepted, please consider this limitation when making requests.

Please note that for the Corps, the Subcommittee may provide funding for a limited number of Environmental Infrastructure (EI) projects and Continuing Authorities Program (CAP) projects, if any, in the Construction account. While requests for specific projects will be accepted, please consider these limitations when making requests. Please note that for Reclamation, projects authorized under sections 4007, 4009(a), and 4009(c) of the Water Infrastructure Improvements Act for the Nation (WIIN) Act of 2016 (Public Law 114–322) will not be accepted.

Requestors are encouraged to keep in mind that only a very limited number of new start projects will be considered, if any, in the Investigations, Construction, and Mississippi River and Tributaries accounts. Similarly, requestors are encouraged to keep in mind that only a very limited number of Environmental Infrastructure projects, if any, will be considered in the Construction account. A very limited number of Continuing Authorities Program projects will be considered in the Construction account. Projects authorized under sections 4007, 4009(a), and 4009(c) of the Water Infrastructure Improvements Act for the Nation (WIIN) Act of 2016 (Public Law 114-322) will not be accepted.

Supplemental Questions:

1. Please provide the official project name as assigned by the Corps or Reclamation. You can find the project name from the previously mentioned lists of authorized projects or through working in consultation with your local Corps District or Reclamation Region office.
 - a. If the project is an individually authorized project or a project under the Corps of Engineers Continuing Authorities Program, include the statutory citation.
2. Please provide the project authorization. You can contact your local Corps District or Reclamation Region office for this information.
 - a. If making a request for a Continuing Authorities Program (CAP) project, please provide the specific Continuing Authorities Program section applicable to your project request (i.e. “204” “1135” etc).

- b. If making a request for an Environmental Infrastructure (EI) project, please provide the EI program authorization, including the Public Law and specific section number (i.e. Section 595 of Public Law 106-53).
3. If making a Corps request, please provide the name of the Corps District where the project is located. If making a Reclamation request, please provide the name of the Reclamation Region where the project is located.

For a Bureau of Reclamation project, is this project authorized only under section 4007, 4009(a), or 4009(c) of the Water Infrastructure Improvements for the Nation (WIIN) Act of 2016 (Public Law 114–322)?

Homeland Security Subcommittee

There are two Federal Emergency Management Agency (FEMA) grant programs within the Subcommittee on Homeland Security's jurisdiction that are open to CPF requests: Pre-Disaster Mitigation (PDM) grants and Emergency Operations Center (EOC) grants. Please review the purpose and eligibility requirements, including any [environmental and historic preservation requirements](#), for these two grant programs to ensure proper consideration of the Member's request.

Over the past fiscal years, FEMA found that many CPF requests lacked the necessary details to determine grant eligibility. Requestors are highly encouraged to upload detailed descriptions of each project submitted. For each project description, please include a detailed budget describing how the requested federal funding will be used and confirm the ability of the requesting entity to meet the cost-share requirement.

The PDM and EOC grant programs have cost-share requirements. Federal funding is available for up to 75 percent of the eligible activity costs. The remaining 25 percent of eligible activity costs must generally be derived from non-federal sources. The non-federal cost-share contribution is calculated based on the total cost of the proposed activity. For example, if the total cost is \$100,000 and the non-federal cost-share is 25 percent, then the non-federal contribution is \$25,000. For PDM grants, small, impoverished communities are eligible for up to a 90 percent federal cost-share for their mitigation planning and project sub-applications in accordance with the Stafford Act (42 U.S.C. § 5133(a),(h)(2)).

Department of Homeland Security

Pre-Disaster Mitigation Projects

All projects submitted must be for purposes authorized by section 203 of the Stafford Act (42 U.S.C. 5133), as amended by Section 1234, National Public Infrastructure Pre-Disaster Hazard Mitigation, of the Disaster Recovery Reform Act (DRRA) of 2018.

FEMA's PDM grants assist state, local, tribal, and territorial governments with planning and implementing sustainable, cost-effective measures to provide long-term, permanent risk reduction to individuals and property from future natural hazards, such as floods

and wildfires, while reducing reliance on federal funding for future disasters.

For PDM grant requests, the database includes specific eligibility questions to ensure the proposed project meets FEMA's requirements as detailed in the most recent [Notice of Funding Opportunity \(NOFO\)](#). The subcommittee encourages offices to consult with their [State Hazard Mitigation Officers](#) when answering the questions in the database.

For any PDM projects designated for funding in the FY 2027 Homeland Security Appropriations Act, the respective State or Territorial Administrative Agency, or Tribal government, must submit an application to FEMA and serve as the administrative agent for the grant on behalf of the entities responsible for the project (grant subrecipients). CPF funding in the FY 2026 House bill ranged between \$117,000 and \$8,685,000 for individual PDM grants, but cannot exceed \$10,000,000.

Please pay careful attention to FEMA's eligibility requirements when answering the following questions:

1. Did you upload a letter from the appropriate State or Territorial Administrative Agency, or Tribal government, confirming project eligibility and their willingness to administer the grant?
2. Has your office or the community consulted with state, county, or local emergency management officials, or with FEMA about the proposed project?
3. If so, please provide the name of the official, the agency they represent, and their contact information.
4. Did your office upload letters of support from local government entities demonstrating community support for the project(s)?
5. Was this CPF funded in the FY 2026 House mark?
6. Is the proposed project eligible under the most recent Notice of Funding Opportunity (NOFO) for the PDM grant program?
7. Can you provide the required non-federal cost-share (25% of total eligible activity costs, or 10% for small, impoverished communities), as detailed in the NOFO?
8. Is the requested federal funding amount limited to a maximum of 75% of the total project cost?
9. If less than the requested amount is provided as the federal share, would additional state, local, or other eligible funding sources be available to support the project?
10. Can the requesting jurisdiction provide a Benefit-Cost Analysis (BCA) or other documentation that validates cost-effectiveness, which is defined by FEMA as having a BCA of 1.0 or greater? A non-FEMA BCA methodology may only be used if preapproved by FEMA in writing.
11. Is the proposed activity consistent with the goals and objectives in both the state

- or tribal hazard mitigation plan (44 CFR Part 201) and the local hazard mitigation plan of the jurisdiction in which the project is located, as specified in the NOFO?
12. If so, what is the FEMA approval date and when will the plan expire?
 13. Have you confirmed the funding request does not include unallowable activities for PDM grants (e.g., dredging waterways; the purchase of emergency vehicles and equipment)?
 14. Describe how the proposed activity expands mitigation capacity rather than repair and maintenance of existing capacity.
 15. How will the project provide long-term, permanent risk reduction, as opposed to simply supporting short-term, temporary emergency protective measures?
 16. Can the recipient describe how the activity supports the needs of people disproportionately at risk of the harmful impacts of natural disasters?
 17. Does the recipient specifically encourage adoption and enforcement of the latest disaster resistant building codes?
 18. Provide a clear and detailed description of the proposed mitigation activity.
 19. How will the mitigation activity be implemented?
 20. Who will manage and complete the mitigation activity?
 21. What risks will remain from natural hazards after project implementation (i.e., residual risk)?
 22. How does the activity reduce the risk to individuals and property for future natural hazards, while reducing reliance on federal funding for future disasters?
 23. Has the project been awarded funding in previous Pre-Disaster Mitigation (PDM), Building Resilient Infrastructure and Communities (BRIC), Flood Mitigation Assistance (FMA), or Hazard Mitigation Grant Program fiscal year grant cycles?
 24. If so, what is the subgrant ID, or which grant program and fiscal year was the application awarded funding?

Emergency Operations Center Grant Program

All projects submitted must be for purposes authorized by section 614 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5196c), as amended by section 202 of the Implementing Recommendations of the 9/11 Commission Act of 2007 (9/11 Act).

FEMA's EOC grants improve emergency management and preparedness capabilities by supporting flexible, sustainable, secure, strategically located, and fully interoperable [EOCs](#) with a focus on addressing identified deficiencies and needs. According to the National Fire Protection Association, an EOC is defined as a "facility or capability from which direction and control is exercised in an emergency. This type of center or capability is designated to ensure that the capacity exists for leadership to direct and control operations from a centralized facility or capability in the event of an

emergency.”

Similar to CPF requests for PDM grants, the database includes specific eligibility questions for EOC grants to ensure the proposed project meets FEMA’s requirements as detailed in the most recent [NOFO](#).

For any EOC projects designated for funding in the FY 2024 Homeland Security Appropriations Act, the respective State or Territorial Administrative Agency, or Tribal government, must submit an application to FEMA and serve as the administrative agent for the grant on behalf of the entities responsible for the project (grant subrecipients). CPF funding in FY 2026 ranged between \$130,000 and \$2,606,000 for individual EOC grants, but cannot exceed \$3,000,000

Please pay careful attention to FEMA’s eligibility requirements when answering the following questions:

1. Did you upload a letter from the appropriate State or Territorial Administrative Agency, or Tribal government, confirming project eligibility and their willingness to administer the grant?
2. Did you upload letters of support from local government entities demonstrating community support for the project(s)?
3. Was this CPF funded in the FY 2026 House mark?
4. Is the proposed project eligible under the most recent Notice of Funding Opportunity (NOFO) for the Emergency Operations Center (EOC) Grant Program?
5. Can the requesting jurisdiction provide the required non-federal cost-share (25% of total eligible activity costs, or 10% for small, impoverished communities), as detailed in the NOFO?
6. Is the requested federal funding amount limited to a maximum of 75% of the total project cost?
7. If less than the requested amount is provided as the federal share, would additional state, local, or other eligible funding sources be available to support the project?
8. Has your office reviewed the funding restrictions and allowable costs section of the NOFO for EOC grants?
9. Has your office confirmed the funding request does not include unallowable activities for EOC grants (e.g., personnel costs; replacement radios for police, fire, and other response personnel; generators for emergency shelters; any equipment that is portable and does not directly support the functional and operational capabilities of an EOC)?
10. Is the proposed project related to a structure or facility that meets the definition of an EOC, to include supporting incident management (on-scene) operations across multiple functional disciplines and/or jurisdictions?

11. For EOC projects that involve construction or upgrading of multipurpose facilities, such as public safety facilities, police/fire stations, etc., EOC grants may only be used for those parts of the facility that are directly associated with the EOC. Does the requested federal funding amount and the total project cost only reflect the proportionate facility construction cost which is generally based on the square footage (floor space) of the EOC compared to the square footage of the entire facility?
12. Has your office or the community consulted with state, county, or local emergency management officials, or with FEMA about the proposed project?
13. If so, please provide the name of the official, the agency they represent, and their contact information.

Interior and Environment Subcommittee

Department of the Interior

For FY 2027, the Interior Subcommittee will accept Community Project Funding requests in the Environmental Protection Agency – State and Tribal Assistance Grants (STAG) account for certain clean water and drinking water infrastructure projects. The Subcommittee will not accept project requests in any other account.

Projects must meet the eligibility criteria of the relevant Clean Water State Revolving Loan Fund (CWSRF) or Drinking Water State Revolving Fund (DWSRF) programs, including for the purposes authorized by federal law and all underlying federal requirements pursuant to Title VI of the Clean Water Act (CWSRF) and Section 1452 of the Safe Drinking Water Act (DWSRF).

There is a minimum 20% cost share requirement for any portion of a project funded through a STAG CPF and the subcommittee will not waive matching requirements. Below are EPA brochures on eligibility guidelines for the CWSRF and DWSRF programs.

The subcommittee encourages offices to review and share these brochures with prospective recipients to better evaluate project eligibility prior to submitting CPF requests into the database.

[EPA's Overview of Clean Water State Revolving Fund Eligibilities](#)

[EPA's Drinking Water State Revolving Fund Eligibility Handbook](#)

Environmental Protection Agency

State and Tribal Assistance Grants (STAG)

All projects submitted must be for purposes authorized by Title VI of the Clean Water Act, 33 U.S.C 1381 et seq. [Clean Water Projects] OR Section 1452 of the Safe Drinking Water Act, 42 U.S.C. 300j-12. [Drinking Water Projects].

The vast majority of requests made to the Interior Subcommittee are for STAG infrastructure grants. These grants fund local wastewater and drinking water infrastructure projects. This includes construction of and modifications to municipal sewage treatment plants and drinking water treatment plants. Similar to past practice, the Committee will be limiting

STAG infrastructure grants only to projects that are publicly-owned or owned by a non-profit entity and that are otherwise eligible for the funding from that state's Clean Water or Drinking Water State Revolving Funds (SRF) loan programs

Privately-owned projects are NOT eligible for infrastructure grants, even if they are otherwise eligible for assistance under a SRF program. Public entities should be considered as the primary grantees to oversee the completion of the project. For STAG water infrastructure projects, States have Intended Use Plans (IUPs) with drinking water and wastewater projects that have already been vetted by governmental officials. The Committee will look favorably upon requests for projects that are listed on a state's most recent Intended Use Plan.

The subcommittee will only accept non-profits as eligible recipients if:

- The non-profit provides water or wastewater utility services or
- The non-profit is a university

There is a minimum 20% cost share requirement for any portion of a project funded through a STAG infrastructure grant. For example, a \$1 million project could receive a maximum of \$800,000 from the Federal government, with the remaining \$200,000 the responsibility of the grantee. In almost all cases, other federal funds cannot be used to meet this 20% cost share. 10 Ability to fund the 20% cost share is required before EPA can award a STAG grant. Please note that assistance provided by a SRF counts towards the project's matching requirement.

STAG projects have very specific eligibility requirements, and the Committee will not consider projects that do not meet those requirements.

In FY 2026, most House EPA STAG CPFs received around \$1,000,000. The Committee may consider higher or lower project amounts for FY 2027, and any caps will be determined by the Chairman after reviewing the full universe of requests.

Projects that generally **ARE NOT** eligible for STAG Grants include:

Clean Water/Wastewater

1. Land: except for projects described in the subsequent table under eligibility #11
2. Operations and Maintenance Costs.

3. Non-Municipal point source Control.
4. Acid Rain Drainage Correction.
5. Ambient Water quality monitoring.
6. Flood Control Projects, unless the project is otherwise managing, reducing, treating, or recapturing stormwater.
7. Privately Owned Sewer Pipes.

Drinking Water

1. Dams or rehabilitation of dams.
2. Operations and Maintenance Costs.
3. Water Rights, except if the water rights are owned by a system that is being purchased through consolidation as part of a capacity development strategy or if the water rights purchase is covered by EPA's DWSRF Class Deviation for Water Rights 2019.
4. Reservoirs, except for finished water reservoirs and those reservoirs that are part of the treatment process and are located on the property where the treatment facility is located.
5. Laboratory Fees for Monitoring.
6. Projects needed mainly for fire protection.
7. Projects for systems that lack adequate technical, managerial, and financial capability, unless assistance will ensure compliance.
8. Projects for systems in significant noncompliance, unless funding will ensure compliance.
9. Projects primarily intended to serve future growth.

Projects that generally **ARE** eligible for STAG Grants:

Clean Water/Wastewater

1. Wastewater treatment plants, including sludge handling facilities - new, upgraded (increase in treatment level) or expanded (increase in treatment capacity) facilities, including biological facilities, mechanical, a lagoon system, a land treatment system, or individual on-site systems.
2. Collector Sewers - Small sewers that convey wastewater from residences,

commercial establishments, and industrial sites to larger interceptor sewers.

3. Interceptor Sewers - Large sewers that convey wastewater from collector sewers directly to a wastewater treatment facility.
4. Sewer Pipes - Rehabilitation is eligible only if pipes are publicly owned.
5. Outfall Sewer - A sewer that conveys treated wastewater from a wastewater treatment facility to the receiving waters (i.e., a river, stream, lake, ocean, etc.).
6. Stormwater Management - Measures to manage, reduce, treat, or recapture stormwater or subsurface drainage water (i.e. storm sewers, green infrastructure, etc.).
7. Combined sewer overflow (CSO) control and sanitary sewer overflow (SSO) control - Combined sewers are sewers that convey both wastewater and storm water and may overflow during periods of heavy rain. The costs to correct CSO and SSO overflow problems are eligible.
8. Infiltration/Inflow Correction - Construction activities that prevent surface water or groundwater from entering the sewer system.
9. Water Security - These projects include installation or upgrade of physical security infrastructure such as lighting, fencing, monitoring and access control. Also, cybersecurity measures, installation of safer treatment technologies, and more secure storage of on-site treatment.
10. Septic Tanks - Remediation, rehabilitation, removal and replacement of failing tanks are eligible, as well as installation of new tanks where none had previously existed.
11. Land - The leasing and fee-simple purchase of land, including surface and subsurface easements, needed to locate eligible municipal or tribal projects, and land integral to the treatment process (e.g., land for effluent application or recharge basins), and a place to store equipment and material during POTW construction. Municipal purchase of land and/or conservation easements for source water protection are also eligible.
12. Water Reuse - Projects involving the municipal reuse or recycling of wastewater, stormwater, or subsurface drainage water. This includes but is not limited to the purchase and installation of treatment equipment sufficient to meet reuse standards, distribution systems to support effluent reuse, recharge transmission lines, injection wells, and equipment to

reuse effluent (e.g., gray water, condensate, and wastewater effluent reuse systems).

13. Capital Nonpoint Source Pollution Control Projects – e.g., river or streambank restoration, agricultural best management practices (i.e., buffer strips, manure containment structures), wetlands restoration, etc.

Supplemental Questions:

1. Is this a Clean Water SRF project or a Drinking Water SRF project?
2. Is the project on your State's most recently finalized Clean Water/Drinking Water SRF Intended Use Plan (IUP)?
3. Does the project have (or expects to have within 12 months) its 20 percent matching fund requirement?
4. Has the project received Federal funds previously? If so, please describe.
5. Does the project help meet or maintain Clean Water Act/Safe Drinking Water Act standards? If so, please describe.

LABOR, HEALTH AND HUMAN SERVICES, EDUCATION, AND RELATED AGENCIES (LHHS)

For LHHS, only the following account is accepting CPF requests:

- Department of Health and Human Services—Health Resources and Services Administration—HRSA-Wide Activities and Program Support

CPF requests within the HRSA-Wide Activities and Program Support account must fall under the following category: Health Facilities Construction and Equipment—CPF requests for the cost of limited-scope construction, renovation, or capital equipment purchase for facilities for health, mental health, or substance use disorder services, training of health professionals, or medical research.

In addition to construction and renovation, CPF funding can be used to acquire capital equipment, such as lab equipment, x-ray machines, or telehealth and information technology.

Equipment-only CPF requests not involving construction are permissible. Generally, any equipment having a useful life of more than one year and a unit cost of at least \$5,000 will be eligible as capital equipment. In addition, equipment with lower costs may also be eligible, if it is treated as an item of capital expense under the recipient institution's pre-existing, written accounting policies. Equipment expenses for health information systems and electronic medical records systems are permitted expenditures, software licenses or operating fees are not eligible.

The costs of expendable supplies such as pharmaceuticals, lab chemicals, or office paper are not eligible. HRSA Health Facilities funding cannot be used to acquire land or purchase existing buildings, or to pay salaries or other operating costs. Funding cannot be used to pay for work previously completed.

CPF requests can be used for architectural and engineering costs associated with an eligible construction project but cannot be used for general feasibility studies. For more information on construction and equipment requests, see: <https://www.hrsa.gov/grants/manage-your-grant/training/community-project-fundingcongressionally-directed>. CPF requests must include a basic budget that clearly describes how the funds will be used for specific purposes to achieve the project's goals.

HRSA CPF recipients may not sub-grant to other organizations or agencies. Eligible recipients for Health Facilities Construction and Equipment community project funding include:

- State, local, and Tribal governments.
- Non-profit entities that are: (1) certified rural health clinics, (2) Federally Qualified Health Centers, (3) designated Critical Access Hospitals; or (4) hospitals located in areas that meet HRSA's definition of rural: <https://www.hrsa.gov/rural-health/about-us/definition/index.html>.

The House Republican Majority has placed a General Provision prohibiting the award of funding for projects to expend funds for any abortion.

The following entities are not eligible for LHHS community project funding:

- Entities that perform or promote abortions, including providing referrals, counseling, lobbying, and training related to abortions; furnish or develop any item intended to procure abortions; or provide financial support for such entities. The exceptions described in section 507(a) of division B of the Consolidated Appropriations Act, 2026 (P.L. 119–75) shall apply.
- Entities that conduct research using embryonic stem cells (if such tissue is obtained pursuant to an induced abortion) or human germline gene modification.
- Entities that facilitate, promote access to, or refer for psychological, behavioral, or medical interventions performed for the purposes of intentionally changing the body of an individual (including by disrupting the body’s development, inhibiting its natural functions, or modifying its appearance) to no longer correspond to the individual’s biological sex.

For each CPF request, the House Republican majority has asked applicants to respond to a series of questions intended to provide transparency and ensure the project is a valuable use of taxpayer funds. Below are specific eligibility questions in the database that must be answered for the LHHS bill:

- (1) Do you affirm that the intended recipient of community project funding is an eligible recipient under LHHS CPF guidelines?
- (2) Why is the project a priority for the district? Briefly explain the community benefits.
- (3) Has the project received federal funding before and, if so, how much, when and from which agencies and program(s)?
- (4) What is the Employer Identification Number (EIN) for the recipient organization?
- (5) Please provide a budget breakdown of this project – maximum of 10 budget categories (i.e., do not upload a spreadsheet with dozens of budget items).
- (6) Please provide the website of the entity to receive funding for this project.
- (7) If the request does not fully fund the project, describe the source(s) of funding necessary to complete the project.
- (8) Please indicate if you are aware of another Member making a request for this same project.

All CPF requests must meet applicable eligibility requirements. Any CPFs that are funded in an appropriations bill will need to apply to HHS for the award. The application will be reviewed for compliance prior to official award. If the CPF recipient’s construction project is expected to begin imminently, please note that CPF construction projects must adhere to National Environmental Policy Act (NEPA) / National Historic Preservation Act (NHPA) requirements prior to initiating any physical preparation, demolition, alteration and renovation, or construction related to the project. CPF recipients should be sure they are accounting for time for application submission and review, award issuance, and resolution of conditions on the award, including NEPA/NHPA requirements, prior to starting the project.

CPF requests should not be viewed as continuous funding sources and should be distinct from competitive grant opportunities. Keep in mind that project funding will depend on available resources, and larger requests may have to be reduced.

Military Construction, Veterans Affairs Subcommittee

All Projects must be for purposes authorized by 10 U.S.C. Chapter 169 and the FY22 National Defense Authorization Act.

The following types of projects are eligible to be considered for community project funding, provided that they comply with the specified guidelines listed below. The subcommittee will not consider requests for community projects unless they appear on a list provided to Congress by the Secretary of Defense or his/her designee. More detail regarding such lists can be found below.

Department of Defense - Military Construction Accounts

All requests, including for design and minor construction, must be included on an unfunded requirements/unfunded priorities list (UFR/UPL) submitted to Congress by a military service, combatant command, or the Office of the Under Secretary for Research and Engineering, or have an existing active authorization from a prior National Defense Authorization Act (NDAA).

- Projects suggested by an installation or unit commander not included on the documents above will not be accepted.

In addition, all project requests must meet the following criteria to be eligible:

- Have at least 35 percent of its design completed. Some projects that have not reached 35% design may be eligible for design funding. With changes to the criteria this year, these projects will not be common in FY27.
- Able to be obligated in FY27.
- Submitted to the House Armed Services Committee for inclusion in the FY27 National Defense Authorization Act or previously authorized.
- Have a DD Form 1391, which is DoD's justification for military construction projects.

Construction and Unspecified Minor Construction– Active Components

Eligible Community Project Funding requests include both construction and unspecified minor military construction projects for active components in the accounts listed below. An unspecified minor military construction project is a project that has an approved cost equal to or less than \$9,000,000. The types of projects under this heading include construction, installation, equipment of temporary or permanent public works, military

installations, and facilities for the accounts listed below:

- Army
- Navy and Marine Corps
- Air Force
- Space Force
- Defense-Wide Agencies (SOCOM, DLA, etc.)

Construction and Unspecified Minor Construction– Reserve Components

Eligible Community Project Funding requests include both construction and unspecified minor military construction projects for Reserve Components in the accounts listed below. An unspecified minor military construction project is a project that has an approved cost equal to or less than \$9,000,000. Note: Some Reserve Component projects require a State funding match. Requesting offices must determine whether the proposed project requires such a match and if so, confirm that the project has current State matching funds. The Committee will not waive match requirements. The types of projects under this heading include construction, expansion, rehabilitation, and conversion of facilities for training and administration for the accounts listed below:

- Army National Guard
- Air National Guard
- Army Reserve
- Air Force Reserve
- Navy Reserve

Unfunded Requirements/Unfunded Priorities Lists (UFRs/UPLs)

UFRs/UPLs are lists that each Service provides to Congress that identify priority projects that were not included in the President's budget request. These lists must be approved by the Secretary of Defense. UFRs/UPLs become available to Congress within ten days of the President's full budget release and can be found by contacting the Congressional Liaison Offices of the Armed Services.

For military construction Community Project Funding requests, the following information will be needed. This information is specific to the Subcommittee on Military Construction, Veterans Affairs, and Related Agencies.

- Which Service is the project for?
- State/territory where project is located.

- Installation Name.
- Project Name and Amount.
- Is the funding request for major construction, minor construction, or planning and design?
- Is the project on the FY 2024-2028 FYDP? If so, for what fiscal year?
- Is the project on a FY27 Service or Combatant Command unfunded requirements/unfunded priorities list (UFRs/UPLs)?
- Does the project have a DD Form 1391?
- If a Reserve Component project, does it require a State funding match?
- Is the project at 35 percent design and shovel-ready in FY 2024?
- Can the project funds be obligated within 12 months of enactment of the bill?
- If a construction funding request, has the Environmental Impact Study been initiated?
- Can the project funds be obligated in FY24?
- Has a corresponding request been submitted to HASC for inclusion in the FY27 NDAA? If a project was previously authorized in a NDAA, please provide the fiscal year.
- Who is the point of contact in the requesting office?

Transportation, Housing and Urban Development Subcommittee

Department of Transportation

Transit Infrastructure Projects

All Projects must be for purposes authorized by chapter 53 of title 49 of the United States Code.

Transit Infrastructure Projects are public transportation capital projects eligible under chapter 53 of title 49 of the United States Code. Eligible capital projects are described under Section 5302(4) of title 49, United States Code, and Section 5339(b)(1) and (c)(1)(B) of title 49, United States Code.

All projects must be:

- Transit capital projects or project-specific planning/design for a transit capital project.
- Supported by the state, local governmental authority, or Tribal government that would administer the project. Inclusion on a Statewide Transportation Improvement Plan (STIP) or Transportation Improvement Plan (TIP) would satisfy this requirement.
- Administered by public entities or Tribal entities.

Public transportation or transit is defined in Section 5302(15) and (22) of title 49, United States Code, as regular, continuing shared-ride surface transportation that is open to the general public or open to a segment of the general public defined by age, disability, or low income, and does not include intercity passenger rail transportation, intercity bus service, charter bus service, school bus service, sightseeing service, courtesy shuttle service for patrons of one or more specific establishments, or intra-terminal or intra-facility shuttle services.

The Subcommittee will not fund activities that are administrative in nature even if they are eligible expenses under the statutory citation. These include general operating expenses, and activities authorized under sections 5303, 5304, and 5305 of title 49, United States Code. Additionally, most projects will be subject to various Federal requirements such as competition in contracting, Buy America, and the National Environmental Policy Act. The Committee strongly encourages Members' offices to reach out to the project sponsor (i.e.,

transit agency) to determine the eligibility and viability of their projects.

The Subcommittee will continue to treat the Capital Investment Grants (CIG) program as programmatic requests and will not fund CIG projects under Transit Infrastructure Projects. Any projects for which the sponsor is seeking or will seek a CIG grant will not be considered.

For each Transit Infrastructure Projects request, Members will need to provide specific information through the electronic database. The database will include the following questions to assist the Subcommittee in vetting and selecting projects. Several of them will require additional information from your office. Please ensure community project funding requests are not duplicative of requests to another Committee or Subcommittee.

Supplemental Questions:

1. What are the benefits of this project and why is it a priority?
2. What is the total cost of the project and what is the amount requested through community project funding?
3. What is the anticipated start/completion date?
4. What is the total project cost, and what is the amount requested for this project?
5. Has this project been requested by another Member of Congress or Senator? Has this request been submitted to another Committee this Fiscal Year? (If yes, which one(s))?
6. Does the project have other public (federal, state, local) and/or private funds committed to meet match or cost-share requirements for costs related to construction, operations, and maintenance? If so, what is the source and amount of those funds? NOTE: The cost-share requirements are defined in statute. In general, transit capital projects typically require 20 percent local share.
7. Does the project require an environmental review? If so, what is the status and/or outcome of the environmental review and National Environmental Policy Act (NEPA) category of action (if applicable)?
8. If the project receives less than requested for the transit infrastructure projects, will the project proceed without waiting for additional funding sources?
9. Does the project intend to apply for any DOT discretionary programs before proceeding? If yes, will the project sponsor still proceed if not selected?
10. Where is the project in the construction process? NOTE: Options include: Planning and Environmental Review, Final Design, Right of Way, Capital purchase or lease (including bus

purchases), Construction, and Other (please specify).

11. Is the project on a state, tribal or territorial transportation improvement plan (STIP) or a transportation improvement plan (TIP) as of 12/31/2025? If yes, provide a link to the plan.
12. Please provide the STIP or TIP ID Number and specify which plan (ex. North Carolina STIP, New York Metropolitan Transportation Council TIP) the ID Number comes from.
13. Please provide a history of federal funding for the project, if any. Include both formula funds and any discretionary grants.

Highway Infrastructure Projects

All Projects must be for purposes authorized by 23 USC 133, or 23 USC 201 or, 23 USC 202, or 23 USC 165

Highway Infrastructure Projects are capital projects eligible under title 23 of the United States Code. Eligible projects are described under Section 133(b) of title 23, United States Code, as amended by title III of division A of the Infrastructure Investment and Jobs Act. Tribal and territorial capital projects authorized under Chapter 2 of title 23, United States Code, are also eligible.

All projects must be:

- Capital projects or project-specific planning/design for a capital project.
- Supported by the state or Tribal government that would administer the project. Inclusion on a Statewide Transportation Improvement Plan (STIP) or Transportation Improvement Plan (TIP) would satisfy this requirement.
- Administered by public entities or Tribal entities.

The Subcommittee will not fund activities that are administrative in nature even if they are eligible expenses under the statutory citation. These include general operating expenses, and activities required under sections 134 and 135 of title 23, United States Code.

Applicants should be aware that Highway Infrastructure Projects have a non-Federal cost share calculated on a sliding scale. The [cost-share requirements](#) are defined in statute and vary based on activity, location, and other factors.

Additionally, most projects will be subject to various Federal requirements such as competition in contracting, Buy America, and the National Environmental Policy Act. The Committee strongly encourages Members' offices and potential funding recipients to reach out to their state departments of transportation to determine the eligibility and viability of projects.

Supplemental Questions:

1. What are the benefits of this project and why is it a priority?
2. What is the total cost of the project and what is the amount requested through community project funding?
3. What is the anticipated start/completion date?
4. Can the project obligate appropriated funds within 12 months after enactment? If not, what would be the expected date of obligation?

5. Has this project been requested by another Member of Congress or Senator? Has this request been submitted to another Committee this Fiscal Year? (If yes, which one(s))?
6. Does the project have other public (federal, state, local) and/or private funds committed to meet match or cost-share requirements for costs related to construction, operations, and maintenance? If so, what is the source and amount of those funds?
7. Does the project require an environmental review? If so, what is the status and/or outcome of the environmental review and National Environmental Policy Act (NEPA) category of action (if applicable)?
8. Type of project eligible under 23 USC 133(b) (Surface Transportation Block Grant Program); 23 USC 201 (Federal Lands and Tribal Transportation Programs); 23 USC 202 (Tribal Transportation Program); or 23 USC 165 (Territorial and Puerto Rico Highway Program).
9. Has the request been submitted to a federal agency for non-earmarked funds, or to another Subcommittee or Committee this fiscal year? If yes, which one(s)?
10. Where is the project in the construction process? Options include: Planning and Environmental Review, Final Design, Right of Way, Capital purchase or lease, Construction, and Other (please specify).
11. Was the project on a State, Tribal or territorial Transportation Improvement Plan (STIP) or a transportation improvement plan (TIP) as of 12/31/2025? If yes, please provide a link to the plan.
12. Please provide the STIP or TIP ID Number and specify which plan (ex. North Carolina STIP, New York Metropolitan Transportation Council TIP) the ID Number comes from.
13. Please provide a history of federal funding for the project, if any. Include both formula funds and any discretionary grants.
14. If the request does not fully fund the project, describe where the remaining funding comes from to complete the project.

Airport Improvement Program (AIP)

All Projects must be for purposes authorized by 49 U.S.C. 47100 et seq.

AIP community project requests may be used for enhancing airport safety, capacity, and security, and mitigating environmental concerns.

All projects must be:

- AIP eligible in accordance with 49 U.S.C. 47100 et seq., and FAA policy and guidance.
- Included in the FAA's National Plan of Integrated Airport Systems

(NPIAS).

- Supported broadly by local stakeholders, including residents, businesses, and elected officials.
- Administered by an airport and/or airport sponsor.

Projects will be subject to various Federal requirements such as competition in contracting, Buy America, and the National Environmental Policy Act. The potential grantee should reach out to FAA Regional District Offices to ensure that projects will be in compliance with these mandates.

For large and medium primary hub airports, the grant covers 75 percent of eligible costs (or 80 percent for noise program implementation). For small primary, reliever, and general aviation airports, the grant covers a range of 90-95 percent of eligible costs, based on statutory requirements. Specific cost share requirements should be understood by the grantee, and verified by the FAA Regional District Office, along with other requirements to receive FAA funding.

Supplemental Questions:

1. What are the benefits of this project and why is it a priority?
2. What is the total project cost, and what is the requested amount for Community Project Funding?
3. Can the project obligate all appropriated funds within 12 months after enactment? If not, what would be the expected date of obligation?
 - a. Obligation occurs when a project sponsor signs a grant agreement with a federal agency.
4. Estimated start and completion dates.
5. Has the project been requested by any other Member of Congress or Senator?
6. Does the project have other public (federal, state, local) and/or private funds for the required cost-share and committed for the forecasted operations and maintenance costs? If so, what is the source and amount of those funds?
7. Does the project require an environmental review? If so, what is the status and/or outcome of the environmental review and National Environmental Policy Act (NEPA) category of action (if applicable)?
8. How will the project contribute to the airport's [disadvantaged business enterprise](#) goals?
9. Has the project received previous Federal funding? If so, how much and which public law (e.g., appropriations act or authorization act) provided it?
10. Is the project [AIP-eligible](#)?

11. Has the airport submitted a grant application for this same project to FAA? If so, when?
12. Would the project increase or decrease air traffic?
13. Would the project increase or decrease aviation safety?
14. Would the project increase or decrease environmental risks?
15. Does the airport and airport sponsor support the project?
16. Are there any stakeholders - such as residents that live near the airport, state or local officials, state department of transportation officials - that oppose the project?

Port Infrastructure Development Program

All projects must be for purposes authorized by 46 USC 54301.

Port Infrastructure Development Program projects are projects eligible under Section 54301 of title 46, United States Code, as amended by title XXXV of division C of the National Defense Authorization Act for Fiscal Year 2025.

The Subcommittee will only fund projects that meet eligibility criteria and will be administered by eligible applicants, as described by statute. As a reminder, funding may not be directed to for profit recipients. Due to the limited amount of total CPF funding, priority will be given to projects at small inland river and coastal ports and terminals, as described in 46 U.S.C. 54301(b), and to discrete, smaller-scale projects at larger ports and intermodal connections to ports.

This program has a statutory non-Federal matching requirement, with potential exceptions for small and rural area ports. Applicants should review 46 USC sections 54301(a)(8) and 54301(b) for more information on these cost-share requirements before submitting requests for funding. Note that recipients are also required to comply with reviews and audits from the Department of Transportation.

Additionally, these projects may be subject to various Federal requirements such as Buy America and the National Environmental Policy Act. The Committee strongly encourages Members' offices and potential funding recipients to reach out to their local port authorities and the Maritime Administration's [Gateway Offices](#) to help determine the eligibility and viability of projects.

Supplemental Questions:

1. What is the project name?
2. What are the benefits of this project and why is it a priority?
3. Total Project Cost and Amount requested through Community Project Funding.
4. Who is the recipient? Provide a website address if available.
5. Is the project at a small port, as described under 46 USC 54301(b)?
6. Is the project in a rural area, as described under 46 USC 54301(a)(12) – an area that is outside of a Census-designated urbanized area?
7. Estimated start and completion dates.
8. Has the request been submitted to a federal agency for non-earmarked funds, or to another Subcommittee or Committee this fiscal year? If yes, which one(s)?
9. Please provide a history of federal funding for the project, if any.

10. Does the project have other public (state, local) and/or private funds committed to meet match or cost-share requirements? If so, what is the source and amount of those funds?
11. If the request does not fully fund the project, describe where the remaining funding comes from to complete the project.

Consolidated Rail Infrastructure and Safety Improvements (CRISI)

All projects must be for purposes authorized by section 22907 of title 49 of the United States Code.

Rail infrastructure projects are capital projects eligible under the CRISI program authorized in section 22907 of title 49, United States Code. CRISI provides grants to assist in financing the cost of improving passenger and freight rail transportation systems. All projects must be:

1. Rail capital projects or systems planning for a rail capital project;
2. Supported by the state, local governmental authority, or Tribal government that would administer the project; and
3. Sponsored by public entities or Tribal entities

This is a new Community Project Funding account for Fiscal Year 2024. The Subcommittee will not fund activities that are administrative in nature even if they are eligible expenses under the statutory citation. These include but are not limited to general operating expenses, rail-related research, and workforce activities.

The Committee strongly encourages Members' offices to reach out to the project sponsor (i.e., public agency) to determine the eligibility and viability of their projects. Projects will be subject to various Federal requirements such as competition in contracting, Buy America, and the National Environmental Policy Act.

Supplemental Questions:

1. Project Name
2. Project Recipient
3. What are the benefits of this project and why is it a priority?
4. Total Project Cost and Amount requested for Community Project Funding.
5. Does the project have other public (federal, state, local) and/or private funds committed to meet match or cost-share requirements for costs related to construction? if so, what is the source and amount of those funds?
6. If the project receives less than requested, will the project still proceed without waiting for additional funding sources?
7. Provide a history of federal funding for the project, if any. Include formula funds and any discretionary grants.
8. Where is the project in the construction process?
 - a. Planning and Environmental Review, Final Design, Right of Way, Contract Awarded, Capital Purchase or Lease, Construction, and Other (please specify)

9. Estimated start and completion dates.
10. Is the project on a state rail plan as of 12/31/2025? If yes, provide a link to the plan and specify page number.
11. Is the project included in a grade crossing action plan? If yes, provide a link to the plan and specify page number.

Department of Housing and Urban Development

Community Development Fund
(CDBG) (Economic Development
Initiative (EDI))

EDI Community Project Funding within the Community Development Fund account of the HUD title is intended for economic and community development activities, consistent with statutory and additional Committee requirements.

Project requests for the FY27 Economic Development Initiative program must be eligible under one or more of the following criteria of the Community Development Block Grant (CDBG) program: 42 U.S.C. 5305(a)(1), 5305(a)(2), 5305(a)(4), 5305(a)(5); which are as follows—but limited to—land or site acquisition, demolition or rehabilitation; blight removal; and construction and capital improvements of public facilities, except for “buildings used for the general conduct of government.” (42 U.S.C. 5302(a)(21) provides: “The term ‘buildings for the general conduct of government’ means city halls, county administrative buildings, State capitol or office buildings, or other facilities in which the legislative or general administrative affairs of the government are conducted. Such term does not include such facilities as neighborhood service centers or special purpose buildings located in low- and moderate-income areas that house various non-legislative functions or services provided by government at decentralized locations.”)

Programmatic and operational expenses are not eligible

5305(a)(1) – the acquisition of real property (including air rights, water rights, and other interests therein) which is (A) blighted, deteriorated, deteriorating, undeveloped, or inappropriately developed from the standpoint of sound community development and growth; (B) appropriate for rehabilitation or conservation activities; (C) appropriate for the preservation or restoration of historic sites, the beautification of urban land, the conservation of open spaces, natural resources, and scenic areas, the provision of recreational opportunities, or the guidance of urban development; (D) to be used for the provision of public works, facilities, and improvements eligible for assistance under this chapter; or (E) to be used for other public purposes;

5305(a)(2) – the acquisition, construction, reconstruction, or installation (including design features and improvements with respect to such construction, reconstruction, or installation that promote energy efficiency) of public works, facilities (except for buildings for the general conduct of government), and site or other improvements;

5305(a)(2) – the acquisition, construction, reconstruction, or installation (including design features and improvements with respect to such construction, reconstruction, or installation that promote energy efficiency) of public works, facilities (except for buildings for the general conduct of government), and site or other improvements;

5305(a)(5) – special projects directed to the removal of material and architectural barriers which restrict the mobility and accessibility of elderly and handicapped persons;

Given that projects must meet these authorized purposes of the CDBG program, the Committee expects to fund the following types of projects and other similar projects:

- Water or sewer infrastructure projects, which are not otherwise eligible to be funded as CPFs in EPA STAG (Interior bill) or Rural Water and Waste (Agriculture bill);
- Local road infrastructure, which is not otherwise eligible as a CPF in Highways (in this bill);
- Streetscape improvements;
- Public or non-profit housing rehabilitation, housing development financing, residential conversions, and neighborhood revitalization projects, which would increase housing supply and/or improve housing affordability in the local community;
- Projects with a clear economic development benefit, such as workforce training centers and manufacturing incubators;
- Projects that meet a compelling local need consistent with the statutory purposes. For example, food banks in economically disadvantaged neighborhoods, youth and senior centers, and multipurpose community centers.

All projects will be evaluated based on the individual submissions, and projects will be selected based on the merits of the project relative to other projects and the availability of CPF funding.

So that requesting entities have the clearest possible guidance on the front end, the House Appropriations Committee provided the following types of projects are **not** eligible for CPF funding:

- Museums, commemoratives, memorials;
- Swimming pools, water parks, golf courses;
- Healthcare facilities;
- Venues strictly for entertainment purposes, such as theaters, amphitheaters, fairgrounds, and performing arts centers;
- Strictly research, operational, or planning activities; and
- Buildings for the general conduct of government (courthouses, post offices, city halls), which are not allowed under the statute.

Due to the statutory restriction on using funds for “buildings for the general conduct of government,” things like courthouses and town halls cannot be funded.

Reminder on Environmental Review Requirements: EDI projects, like all projects funded by HUD, are subject to requirements under the National Environmental Policy Act (NEPA), HUD’s NEPA-implementing regulations at 24 CFR Part 50 or 24 CFR Part 58, and all applicable federal environmental and historic preservation laws, regulations, and Executive Orders. An environmental review must be completed before HUD funds and new commitments of non-HUD funds can be used on a project (24 CFR 58.22).

In addition to meeting the above eligibility criteria, all projects must meet these Committee requirements:

- Administered by state, local, or tribal governmental entities or non-profit 501(c)(3) organizations.
- As a reminder, for-profit entities are not eligible for Community Project Funding
 - Be advised that projects for governmental entities to improve private properties pursuant to 42 U.S.C. 5305(a)(4) will be highly scrutinized and possibly not funded.
- Be advised that projects submitted under 42 U.S.C. 5305(a)(1)(C) will be disfavored if the only or primary purpose of the project is “beautification” or historic preservation, without evidence of other community development or economic development benefits.

EDI projects are not eligible for the reimbursement of expenses for soft costs (planning, administrative) incurred prior to the completion of a grant agreement between HUD and the grantee; a grant agreement and a completed environmental review are necessary for reimbursement of hard costs (construction activities).

Supplemental Questions:

1. Project Name.
2. General Project Description.
3. What are the benefits of this project and why is it a priority? Benefits could include safety, environmental, economic, equity, mobility, etc.
4. What is the total project cost, and what is the requested amount for Community Project Funding?
5. Is this project consistent with the primary objective of the community development program? Please describe who the project is intended to benefit.
6. Who are the community partners participating in this project? Have local community development organizations with prior experience with HUD programs been consulted?
7. Can the project obligate all appropriated funds within 12 months after enactment? If not, what would be the expected date of obligation?
 - a. Obligation occurs when a project sponsor signs a grant agreement with a federal agency.
8. What is the estimated start/completion date?
9. Does the project have other public (federal, state, local) and/or private funds committed to meet match or cost-share requirements for costs related to construction, operations, and maintenance? If so, what is the source and amount of those funds? NOTE: EDI community project funding does not have a match requirement.
10. Has this project been requested by any other Member of Congress/Senator?
11. Has the request been submitted to another Subcommittee or Committee this fiscal year? If yes, which one(s)?
12. Who are the community partners participating in this project?
13. What is the entity's TIN/EIN?
14. What is the entity's UEI?
15. What is the ZIP code of the project location? If the project spans multiple ZIP codes, provide the ZIP code where most of the appropriation would be spent.
16. Does the grantee have a Community Project Funding (CPF)/Congressionally Directed Spending (CDS) project that has not yet secured a signed grant agreement with HUD? This should include projects for which appropriations were made since FY2022. If yes, please provide:
 - a. The title of the project;
 - b. The fiscal year the CPF/CDS was enacted;
 - c. The awarding Member(s) and/or Senator(s);
 - d. The grant number as provided by HUD; and
 - e. The grant's status ("No Materials Submitted" or "Grant Review in Progress").

Frequently Asked Questions

The process of requesting and submitting requests for Community Project Funding can be confusing. Here are some of the most frequently asked questions about the process. Please check this section for answers to many of your questions before following up with my staff.

What is Community Project Funding?

Community Project Funding is generally defined as spending provisions in federal legislation that:

- Are requested on behalf of constituents or constituent organizations by a Member of Congress or Senator;
- Provides, authorizes, or recommends a specific amount of discretionary budget authority, credit authority, or specific funding amount to a specific entity for a specific purpose; and,
- The purpose of the project must meet the objective of a federal program under existing law.

Community Project Funding is typically requested for projects with a clear purpose and goal above and beyond normal operating activities, for which private, non-federal funding is not available or sufficient. Community Project Funding will typically only serve as a partial contribution to the total cost of a project.

Community Project Funding is known as Congressionally Directed Spending in the U.S. Senate.

Is there a deadline for submitting a request?

Yes. The deadline to submit a Community Project Funding request for our office are between **March 4th and March 6th**. If you need additional time to procure additional pieces of Community Support, please let my team know in advance. My team is happy to work with you on a case-by-case basis.

What if I miss a deadline? Are any exceptions made if the bill hasn't been passed?

Congressional offices review numerous requests in a short amount of time. As a result, deadlines are strictly enforced. Once our office submits my requests to the full committee, I

am unable to change or add requests. That is why it's important to submit your request before the deadline.

Are Community Project Funding requests publicly disclosed?

Yes. All requests for Community Project Funding submitted by the Member to the committee for consideration must be publicly listed on that Member's website, including the name and address of the requestor, the amount requested, and the justification for use of taxpayer funds no more than 20 days after requests are submitted.

How many Community Project Funding requests will the Congressman make?

In FY 2027, Members of the House of Representatives are limited to submitting **20** requests for Community Project Funding across the entire House Appropriations Committee.

Are there limitations on what Community Project Funding can be used for?

Yes. Federal Programs have very specific restrictions on how federal funds can be used. It is recommended that you closely examine this guide for references to eligible uses or limitations on use. Generally, funding cannot be used for debt service, recurring or routine expenses, reimbursement of costs, or projects that cannot demonstrate value to the community.

Can I request funding for “bricks and mortar”?

In general, no. One of the most common requests for funding is for building construction or renovation. Most appropriations account specifically prohibit this kind of project given the high demand.

There are some exceptions to this rule, including the Economic Development Initiative under the Department of Housing and Urban Development, and certain projects under the Military Construction Subcommittee, etc.

Should I submit my request to both my U.S. Representative and U.S. Senators?

Yes. It is strongly recommended that you submit your request

to all of your federal representatives.

How much should I request?

It depends on the account from which you are requesting funds. You should request the amount you need and can realistically use in the time frame laid out for use in the grant (generally one year from when funds are received.) Receiving funds from Community Project Funding in one Fiscal Year is not a guarantee for Community Project Funding in future Fiscal Years. You should only use last year's funding data as general information, and should not be dissuaded from requesting an amount larger than average for the account you're requesting for. You should not, though, request more funds than you need or that can be realistically spent in the Fiscal Year for which you receive the funds. Many accounts have information from the committee on the maximum level of funding that will be considered.

How should I determine how much funding to request?

The level of funding request should be justified by the project proposal, budget plan, and community support. Data on the range of projects can be found in this guide, though you should request what you can realistically use and spend in the Fiscal Year of award. In FY 26, the committee awarded well outlined and high quality projects with the requested amount generally.

A helpful indication may be to look at what a typical grantee may receive for a one-year allocation of funding for the specific program you are interested in requesting a Community Project Funding request for.

Is there a minimum amount one should request for Community Project Funding?

No, there is no minimum amount of funding to request.

What if I do not know the appropriate Account or Agency for my project request?

This guide has been prepared to outline information on available accounts. Requestors should use this guide to identify the appropriate account to identify one that meets the needs of

your project or organization. Please call my office if you need additional information.

If my project is funded, will I receive the full amount I request?

There is no guarantee that an approved Community Project Funding request will be funded at the requested level.

Do I need letters of support?

Yes. The more community support for a project, the better. As listed above, letters of support from local, municipal, and state elected officials and stakeholders, as well as editorials and articles in local newspapers on the importance and necessity of the project are all important.

I submitted a request. Will it be approved? When will I know?

The FY 2027 Community Project Funding process is extremely targeted and this process is also very competitive. While my team will look at all requests, it is strongly recommended you explore other grant and funding sources as well.

Many subcommittee deadlines are in early to late March for FY 2027. In order for my team and I to properly examine all requests, please ensure to meet my office's deadlines outlined above and on my website.

The House Appropriations bills are typically considered in the late spring, with the Senate considering bills in late spring and over the summer. The House and Senate must convene a "conference committee" to work out the differences in each of those bills.

The Committee requires all members to publicly disclose and post their final requests to the Appropriations Committee once the requests are made. Please remember, even if your project is supported in the House and/or Senate Appropriations bills, the funding level is subject to change until the final bill is signed into law.

This process can be long, but my team and I will be sure to keep all projects apprised of their status.

If my Community Project Funding request is granted, what is the process for getting the assistance and how quickly will I receive it?

In general, recipients of Community Project Funding will be contacted by the appropriate agency or office that oversees the account from which your project received funding. This cannot happen until the appropriations bill in which your project was listed is signed into law. The timing varies between departments and agencies – some may start the process within several weeks, others may take several months after the bill's enactment into law.

In most cases, you will have to complete and submit a grant application outlining the project's goals, cost estimates and other requirements. You will work with a program or contract officer to complete these steps; they may have questions or additional requirements that could affect the timing of the obligations or outlay of funding to your organization.

The process of accessing funding and the time it takes to complete the necessary steps, surprises many recipients who expect the money to be provided immediately.

Please be sure to take this into account when submitting a request.

Can I depend on receiving Community Project Funding for the same project more than once?

Generally, no. Most successful requests are one-time infusions of funding, generally used to launch a project or partially contribute towards the total cost of a project.

Given the limitations on the appropriations process for Community Project Funding, there is no guarantee that Congress will support a project for more than one year. However, you should discuss the needs of your project with your Congressional sponsor(s) if you believe that federal support will be needed beyond a single fiscal year.

Are all non-profits eligible?

501(c)(3)'s are eligible for certain accounts under Community Project Funding.

What is the anticipated timing for disbursement of Community Project Funding relative to passage of the legislation?

When Community Project Funding is secured in the final spending bill, this will create a grant program for which the requester is the only eligible applicant. The requester will need to apply for the grant that is their Community Project Funding before funds will be disbursed. In terms of timeline, this will vary by federal department/agency as this will be a new process to implement. For context, regular grants usually take between 6-10 months.

Does Fiscal Year 2027 refer to the federal fiscal year or the state fiscal year?

This refers to the Federal Fiscal Year; Fiscal Year 2027 begins on October 1, 2026. Many states have a fiscal year that begins in July. It is not an issue if the state FY 2026 overlaps with federal FY 2027.

If the FY27 spending bill isn't finalized until much later (i.e. December 2026), will Community Project Funding requests still need to be fully obligated and spent by September 30, 2026, or will they have 12 months after enactment to obligate funds?

The question on our Community Project Funding form regarding 12 months is primarily for planning purposes and to assess whether the recipient is ready to access the funds. If approved, Community Project Funding will be available for the same "period of availability" as other federal funds in the same account. That could be for one-year, two-years, or five-years depending on the project type.

Will Community Project Funding be taken from the overall funding pot for specific agencies?

For FY 2027, no more than 0.5% of discretionary spending will be allocated to fund all Community Project Funding.

What limitations are there on non-federal matching funds? Can this come from private donations or is it limited to state and local funding sources? Would in-

kind matches be determined at the programmatic level or is there a general rule?

Some programs allow for in-kind matches. The criteria differ based on what the laws for each agency and program allows.

If a non-profit did a membership campaign or donation drive and can show the number of donors, as well as that donors were predominantly local residents, would that be considered acceptable community support?

The House Appropriations Committee has recommended publicly available documents such as letters from community leaders, press articles, resolutions passed by local governments, and public planning documents.

Are capital projects eligible for Community Project Funding?

In certain cases, yes. This guide outlines which programs do and don't include capital funding.

Is there a preference for programmatic funding or Community Project Funding?

There is no preference, but the distinction between the two should help guide whether your request is programmatic in nature or a Community Project Funding request. Community Project Funding is for a specific governmental entity or non-profit to carry out a specific program or project in the spending bill at a specified level.

Can Community Project Funding be used for payroll and other operating expenses?

No. Community Project Funding is intended as a one-time infusion of resources to move a project forward that benefits the community, and using it for operating expenses would potentially create a budgeting cliff. There's no guarantee that if one receives Community Project Funding in one fiscal year that there will be subsequent funding in later fiscal years for the same project.

When will we hear back about our request?

This will be a long and competitive process. First, my office will publicly post the requested Community Project Funding requests I will submit to the House Appropriations Committee. Then, the House Appropriations Committee will review and finalize a list of Community Project Funding requests from across the country to be included in the FY 27 House spending bill, which is expected to pass the House in the late summer. Any differences between the House and Senate Appropriations bills will need to be resolved in the early fall before passing and enacting a final spending bill for FY 27.

Other Federal Funding Resources

The Community Project Funding process is highly competitive, and while there are many worthy projects that deserve support, funding limitations prevent many from receiving funding through the Congressional appropriations process. However, it is important to note that Community Project Funding represents only a small fraction of the discretionary funding available through competitive grants, loans, and other opportunities.

Below are a number of useful resources to explore other federal funding opportunities. Each Congressional office has staff dedicated to assisting organizations with seeking and applying for grants; you are strongly encouraged to contact your Congressional representatives to discuss how you can access any assistance from your federal elected officials.

Key Resources

Grants.gov

Looking for other federal funding opportunities? At Grants.gov, organizations can search and apply for competitive grants from 26 different federal agencies. Grants can be searched by agency, type of applicants, intended purposes, and more.

SAM.gov

The official U.S. government website for people who make, receive, and manage federal awards.

GovLoans.gov

Interested in finding out which loans or benefits you may be eligible for? Here you can learn more about federal loans, determine which loans may be right for you, and more.

Benefits.gov

This tool will help you figure out what government benefits you may be eligible for. It also provides information on how to apply for these programs.

USA.gov

The official guide to US Government Information and Services.

Feedback

I hope this guide is helpful to you in compiling your Community Project Funding requests. My team has spent many hours putting our process and this guide together. Your feedback is essential to ensuring that this guide and process remain user-friendly. Please share any feedback you have with my staff.

Thank you.
